

R.A.F.T Instructions

Set Up Information

R = role	A Gas Molecule
A = audience	NASCAR team, a balloonist or a SCUBA diver
F = format	Letter of complaint
T = topic	The problems that pressure, temperature, and/or volume are creating in your life.

In your RAFT situation, consider the following:

- To whom will you write and what complaint will you choose?
- What data do you have to support your complaint?
- What problems are being created in your “life as a gas” by the variables that have been explored?
