

## Southeast Arkansas Education Coop

1022 Scogin Drive  
Monticello, AR 71655

Lori Cingolani, Science Specialist K-12

Science Job-Alike Consortium

2012-2013 Consortium Focus is:

### Common Core:

#### Implementation in the Science Classroom

Science as well as other curriculums are full of opportunities to practice proven instructional strategies such as problem based learning. This year, each training will consist of the most current information in the following areas:

- Common Core—Science, Social Studies, Tech. Content Literacy in Science—Close Reading / Argumentative Writing
- PARCC—Sample questions and how to write formative and summative assessments to meet the rigor of Common Core.
- SREB MDC/LDC strategies that work
- PBL/Engineering
- Technology

Through science we can improve a students love for reading, help them become better writers, and make math calculations practical.
